CAREER EXPLORATION SUCCESS STORY

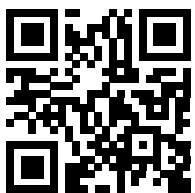

Harnett County Schools, North Carolina

North Carolina students in Harnett County get a glimpse into high-demand local careers with a mobile CTE trailer. Using a capital credits refund, Harnett County Schools purchased a trailer and filled it with state-of-the-art equipment representative of local industries. They contacted Realityworks for a variety of simulators and kits focused on trades, agriculture, and health science careers. This trailer is one piece of big movement to promote hiring needs in the region.

"With regards to the simulators through Realityworks that we have on the trailer, our director has done a phenomenal job of testing them out with our trades trailer and then seeing the impact it can have to enhance classroom instruction."

Lindsey Spivey Hardee - M.Ed., NBCT, Director of Career & Technical Education, Harnett County Schools, NC
